We have connected all the material and results produced by the activity of the WP9 to the web portal of the GIACS project. Specifically the material of the GIACS Conference on *Data in Complex Systems* including the presentation and movies of all talks and a short report on the concepts and ideas expressed during the round tables have been linked to the GIACS www portal. In addition the results of a survey we did about the approach to and use of data in complex system research has also been linked. See <http://www.giacs.org/node/598>.
